

WORLD CUP 2026

Official Bingo Cards

World Cup 2026
200 cards · 15 results per card

These bingo cards have been generated using match results from the last five FIFA World Cups (2006, 2010, 2014, 2018 and 2022).

Each result's frequency has been calculated based on how often it occurred across those tournaments. More common results therefore have a higher probability of appearing on the cards, while rarer results appear less frequently.

This statistical weighting means that some cards may contain duplicate or even triplicate results. This is intentional and reflects the real distribution of historical World Cup outcomes rather than an artificially uniform spread.

Because the cards are based entirely on historical match result distributions, there is no guarantee that a bingo will occur in any given match or set of matches. All outcomes depend on real match results and probability, not predefined winning conditions.

Each bingo card includes space for marking ownership or sale information, such as a name, number or note in the corner of the card. This helps ensure that each card is uniquely identified during play and prevents reuse or copying of cards once they have been distributed.
